CANCEL

4. When setting Service Account Access (permissions) , “Storage Object Viewer” role is recommended

The screenshot shows the Google Cloud IAM & Admin console. The left sidebar lists various IAM & Admin tools, with 'Service Accounts' highlighted. The main content area displays the 'Create service account' wizard. Step 1, 'Service account details', is completed. Step 2, 'Grant this service account access to project (optional)', is the current step. It shows a role selection dropdown set to 'Storage Object Viewer' (highlighted with a red box), which provides 'Read access to GCS objects.' A 'Condition' section with an 'Add condition' link is also present. Step 3, 'Grant users access to this service account (optional)', is visible below. At the bottom, there are 'DONE' and 'CANCEL' buttons.

Create service account

1 **Service account details**

2 **Grant this service account access to project (optional)**

Grant this service account access to AutoTrade so that it has permission to complete specific actions on the resources in your project. [Learn more](#)

Role: **Storage Object Viewer** (Read access to GCS objects.)

Condition: [Add condition](#)

+ ADD ANOTHER ROLE

CONTINUE

3 **Grant users access to this service account (optional)**

DONE CANCEL

5. Once the account has been created, go to the “Actions” column and click on the icon next to the newly created service account. Select “Create Key” then download a copy of the key to a secure location that can be accessed from the Auto Trader Client. A “config” directory within Auto Trader Client is recommended.

Service accounts for project

A service account represents a Google Cloud service identity, such as code running on Compute Engine VMs, App Engine apps, or systems running outside Google. [Learn more about service accounts.](#)

Organization policies can be used to secure service accounts and block risky service account features, such as automatic IAM Grants, key creation/upload, or the creation of service accounts entirely. [Learn more about service account organization policies.](#)
